PAPER-BASED PACK THAT CAN BE USED IN SHOWER ROOM

- Replaces plastic bottle
- Non-foil structure
- Can be used in damp locations

Toppan has developed a new paper-based pack called Cube Pack™ to replace regular plastic bottles.

Cube Pack's unique structure enables use in damp locations such as shower rooms and bathroom sinks.

Sample shipments for toiletries and other products will begin in Japan in February 2019.

■ Features

- Can be used in damp locations
- 75% less petroleum-based materials than plastic bottle
- Compatible with various spout types
- Maintains freshness and flavor (GL FILM used on inside to eliminate need for foil)
- Folding the package flat reduces delivery and storage costs
- Compatible with existing filling machines
