

## Toppan USA to present Sustainable Barrier Film Development at Multilayer Flexible Packaging 2019

Chicago, June 21, 2019—Toppan USA will be exhibiting at Multilayer Flexible Packaging 2019 in Chicago. Sales Engineer Shukiko Tanaka will give a presentation titled **“How to Integrate Barrier into Sustainable Packaging”**.

**Shukiko Tanaka**

Sales Engineer  
Packaging and Barrier Film Applications  
TOPPAN USA, INC.

### Multilayer Flexible Packaging 2019

- Date: June 25-26, 2019
- Venue: Marriot O'Hare  
Chicago, IL

Shukiko will present the latest developments in Toppan's GL FILM range of transparent high barrier films. These include the world's first PE-based SiOx barrier film for recyclable packaging.

New films in development include:

- Barrier PE: Coating type
- Barrier PE: SiOx + coating
- Barrier OPP: Coating type
- Barrier OPP: SiOx + coating

Toppan is planning to ship samples soon and commercialize these films for various sustainable packaging needs. ■
